5/003/020

Dear Leon,

This is to advise you that the Bown's of Utah Building Stone Supply were doing major excavation at their claims in the Dove Creek area when I was there on 5/20/93. I would appreciate knowing about what progress you are making toward having them clean up their many previously wrecked workings around the state before they tear up another area. Also, have they complied with mining plans etc. on all of their properties?

Per many previous communications and correspondence we will keep you apprised of other operators who are doing a poor job so we can help you better apply your regulations and get the honest and serious mining and quarrying business in a position of credibility with the public before we are literally forced out of business.

Sincerely,

Gary Mullard
President

lw
